

YOUR CHILD HAS RECEIVED AN AUTISM DIAGNOSIS WE WANT TO HELP YOU TAKE YOUR BEST NEXT STEP

"I added this practical recommendation to my post-diagnosis report to give client families immediate practical action steps forward"
- Dr. J. Flannagan, Pediatrician, ASD Specialist, CPSO, RCPSC

Why ThriveGuide?

- Waitlists
- Affordability
- Decision Fatigue
- Information Overwhelm

ThriveGuide is a solution to these common barriers families like yours can face. What is the next specific development goal I should focus on for my autistic child? Which is the best strategy to achieve it? These are exactly the questions that ThriveGuide answers, individualized to your child's unique profile.

Our online platform empowers parents with an evidence-based "treatment map" so you'll have clarity of what the next best step is. Low-cost, high-impact activities are also available right away - no waiting list - presented with care and no-judgement.

How Does it Work?

First, you'll complete an intake questionnaire designed to listen deeply about *your* child's strengths and challenges.

Next, you'll receive your custom ThriveGuide which includes 12 personalized, priority-ordered, and research-based recommendations.

Your recommendations will include guidance and resources to help your child improve their physical health, social skills, language skills, independence, and repetitive behaviours - all specific to their unique needs.
